As a rough guide shipping costs are currently whatever I pay the courier + 40p. At current rates Under 1 kg would be £3.59, 1-2 kg would be £5.09 and 2-5kg would be £6.79.

I normally send out the paypal invoice over a weekend having first de-potted and weighed the plants.

Courier pick up is usually a Monday and based on recent shipments I would expect delivery By Wednesday.
